Your AZ Water Stormwater Committee is looking for suggestions on topics for specific educational topics for our group and training for outside entities. Contact any board member with ideas. This group came up with three training options that could be used as fundraisers for AZ Water:

2. HOA landscape maintenance requirements
3. Construction site operator training

This committee needs volunteers for a sub-committee to plan these events. We welcome your input and support of future training courses offered by this committee.

Waiting on updated information from NMSA. Once received, will present to group.
