

Stormwater & Construction Seminar 2012

**Tuesday, April 24th, 2012
8:00 a.m. to 12:00 p.m.**

**Arizona Department of Transportation
Human Resource Development Center
1130 North 22nd Ave., Phoenix, AZ 85009**

- 07:30 am Open and Check-in, Meet and Greet
- 08:00 am Introduction to STormwater Outreach for Regional Municipalities & Stormwater requirements for Member Cities
(Lacey Paccione - City of Peoria)
- 08:15 am Arizona Department of Transportation Stormwater Permit & Management Plan
(Wendy Terlizzi – ADOT Office of Environmental Services)
- 09:00 am Break
- 09:15 am AZPDES Construction General Permit 2013 Overview
(Lisa Spahr – EEC / Engineering & Environmental Consultants)
- 10:00 am Break
- 10:15 am Arizona Department of Environmental Quality AZPDES Construction General Permit Site Compliance Inspections Common Mistakes & Enforcement
(Greg Wise – ADEQ Water Quality Division)
- 11:00 am Panel Discussion and Questions
- 12:00 pm Seminar Ends

Presentation abstracts and Materials in the following pages.

Abstracts

Introduction to STormwater Outreach for Regional Municipalities (STORM) & Stormwater requirements for Member Cities

Presented by Lacey Paccione - City of Peoria

STORM is a regional organization promoting stormwater quality education within the greater Phoenix metropolitan area. STORM uses a multimedia approach targeting audiences through radio, television, special events, and providing permit information to the general public and the regulated community.

Arizona Department of Transportation Stormwater Permit & Management Plan

Presented by Wendy Terlizzi – ADOT Office of Environmental Services

A general overview of the ADOT Arizona Pollutant Discharge Elimination System (AZPDES) Stormwater permit program designed to reduce the discharge of pollutants associated with the stormwater drainage systems that serve highways and transportation-related properties, facilities and activities. Also describes how ADOT complies with the provisions of their AZPDES Individual State-wide Stormwater Permit.

AZPDES Construction General Permit 2013 Overview

Presented by Lisa Spahr – EEC / Engineering & Environmental Consultants

A general overview of the draft ADEQ AZPDES Construction General Permit 2013 currently under revision utilizing the U.S. EPA Construction General Permit 2012 and state-wide stakeholder input.

AZPDES Construction General Permit Site Compliance Inspections, Common Mistakes & Enforcement

Presented by Greg Wise – Arizona Department of Environmental Quality (ADEQ)

Will provide an introduction into what the regulatory compliance inspectors do when they come to the construction site and what they are looking for. This presentation will also address the most common mistakes and pitfalls with AZPDES compliance with the requirements of the Construction General Permit. ADEQ seeks to foster a better understanding of why the permit requirements are necessary, and how best to prevent the necessity of enforcement actions for non-compliance.

Panel Discussion and Questions

Presented by members of STormwater Outreach for Regional Municipalities
